

As a member of St. Philip's Anglican Church, Milford, On. I am submitting my personal submission on Canon 21.

I am in favour of changes within Canon 21 to accommodate same sex marriage between two persons in a committed, loving relationship.

I believe our loving God created each person as unique and each should be able to express his or her love for another in a committed marriage relationship if they so wish, within the Anglican Church of Canada whether they be gay or straight.

I appreciate the opportunity to be able to express my personal view which I prayerfully submit.
